

## Objective

Win the game by competing against other players to be the best short order cook. The Short Order Hero wins the game by scoring the most recipe points by the end of the game.

### Setup

1. Shuffle the Recipe Deck and deal out 5 Recipes face up in reach of all players.
2. Shuffle the Ingredients Deck and deal out 7 cards to each player. Players should keep their hand secret.
3. Place the remaining Ingredients Deck face down in reach of all players.
4. Lay gameboard flat on the table. Place the Chef Hat on the correct starting position based on the number of players.

## Game Play

The player that last ate at a diner goes first.

Players in turn, clockwise from the first player take turns playing cards from their hand to:

- Make Recipes by laying down all of the required Ingredients listed on an available Recipe Card. Once a Recipe has been made the player who made it takes the Recipe and adds it to their completed orders
- Add Spices and Seasonings to an already made Recipe
- Acquire new cards by playing special cards that allow you to draw new cards or steal cards from other players

- Sabotage other players by adding Black Hairs and Cockroaches to their already made Recipes

Players can play as many cards as they want per turn, however their turn ends when they draw a card from the Ingredients deck.

*Note:*

- *If a player didn't play any cards on their turn they can draw 2 Ingredients instead of 1.*
- *Some Recipes allow for bonus Ingredients. Those bonus Ingredients can only be added when first made. The bonus Ingredients must be added in order listed.*
- *Once a Recipe is completed only Spices, Seasonings, and Sabotages can be added.*
- *If a player wants to eliminate a Recipe, to be replaced immediately, they may discard a number of Ingredient Cards equal to the Recipe base value.*
- *If an Ingredient is listed as "Any Meat" Beef, Chicken, or Pork can be used.*

Once a player's turn is over replace any Recipes claimed by new Recipes so that there is always 5 Recipes in play.

Once play returns to the first player, move the Round Marker to the next location.

## Game End

The game ends when the Round Marker makes it to the end of the game track and everyone has their last turn.

## Winner

Once the game is over add up the total Recipe value from each player's completed Recipes. The Recipe value is listed on the bottom right corner. If the Recipe has bonus Ingredients that were completed you use the larger number listed, else use the smaller number. You must also account for all bonus Spices & Seasonings and Sabotages.

*Note: Sabotages cannot make a Recipe's value go below zero.*

The player with the highest total Recipe value is the Short Order Hero!
